

## *Tillamook County Community Advisory Council*

Wednesday, May 11, 2022 3:00 -5:00pm

### **AGENDA ITEMS**

Meeting called to order at 3:01pm by Chair. Agenda and minutes were approved with a minor agenda change, and we did introductions.

**CAC Demographic Survey:** Heather reviewed the regional stats from the demographic survey; the group will review the final report next month. We will end 10 minutes early to allow time to complete it.

**RHIP Annual Update:** Reviewed what the CCO has accomplished in this past year: expansion of Traditional Health Workers, housing funding, etc. Nearly 2 million dollars have been invested in housing alone, funding 116 units across the region. Had a brief discussion with Peter Starkey from CARE about the now vacant assisted living facility buildings.

**IA Update:** Belle provided COVID updates, including discussion of the new RISE program, focused on COVID recovery. The federal health emergency is extended to July 15, so nobody's OHP will expire in the meantime; OHA is developing the Bridge plan to help people who may fall through the cracks. Tillamook County behavioral health programs will receive 2.2 million dollars from Measure 110 redistribution of medical marijuana funds; we will soon hear how that is being distributed.

**Community Check-in:** The group discussed issues around access to emergency services for people experiencing behavioral health or substance use issues.

Meeting ended at 5:01pm. **Next meeting is June 8, 2022 from 3-5pm**
