

## *Tillamook County Community Advisory Council*

*Wednesday, June 10, 2020 3:00 -4:30 pm*

### **AGENDA ITEMS:**

Meeting called to order at 3:00pm by Chair. Minutes and agenda approved.

**Robyn Herrick** joined us from Tillamook Family Counseling Center, and gave a presentation outlining available services, including crisis response, and new practices put into place during COVID.

**CWIF** applications (non-competitive) are going live on June 16.

**IA update:** We are in Phase 2 and will linger there for a number of months. There is a press release today with the Dept. of Education and the Governor about reopening schools. We discussed recent outbreaks in food processing facilities, which have had a racial impact, and those testing positive in the food plants are experiencing racism.

**New business/Announcements:** Mental Health Advisory Council has not been active due to COVID19 and would like to talk about the roles that we can play in working together. We would like to invite more mental health providers to the CAC. We will continue the two meeting per month format through June. We will assess July after we have more info on the COVID situation.

Meeting ended at 4:48pm.
