

2025 CPCCO Community Health Summit: Choosing community

Monday, October 6th—Tuesday, October 7th in Seaside, Oregon

Proposals due by 5/16/25

Call for proposals

Building on momentum from last year's Summit, we look forward to shining the spotlight on our robust community system of care again this October.

No matter what is happening around us, we believe prioritizing connection and community partnership, fostering a well workforce and celebrating our strengths and accomplishments are vital elements to increasing hope and belonging, solidifying a sense of purpose and paving the way for broad healing and community well-being.

To that end, in addition to our typical plenary and breakout sessions, this year we will have an enhanced and intentional focus on wellness—providing opportunities to connect with each other throughout our two days together.

Vision statement:

To convene regional and statewide partners, clinicians and community members to learn together, inspire each other and commit to individual, organizational and systemic changes that improve the lives of those living in our communities.

.....

1. **Presentation title** _____

2. **Please select which theme(s) your presentation will address.**

Ok to select more than one:

- ☐ **Community collaboration:** Highlighting ways partnership and collective effort across systems have helped improve the health and well-being of our communities
- ☐ **Integrated/whole person care:** Exploring care at the intersections—primary care and AUD and/or severe mental illness, schools and families, mental health and SUD, etc.
- ☐ **Substance use disorder:** Clinical interventions and best practices for alcohol use disorder, co-occurring disorders, etc.
- ☐ **Youth and family system of care:** Recommended methods to empower our youth and families as they navigate our systems
- ☐ **Workforce wellness:** Approaches and best practices for supporting recruitment and retention of teams
- ☐ **Facilitated connection or wellness activity:** We're excited to expand our Call for Proposals to include the opportunity to lead connection or wellness activities such as facilitation of yoga or meditation, teaching a craft, creating art, leading a guided walk, etc. Please reach out if you have any questions or would like to brainstorm an idea to share.
